1. **Name(s) and Number(s) of Course being assessed for Oral Communication:**
   CTSE 4920: Internship in Secondary Social Science

2. **Number of Students enrolled per year AND number of those students whose work was assessed for oral communication (SLO 7) competency:**
   24/24

3. **Assessment Method(s):** Explain how assessment for this SLO - not grading for the course as a whole-was conducted. You may cut/paste rubrics for inclusion here, identify faculty reviewing committees, or identify specific kinds of test questions important to your method.)
   We used 4 of the 8 Initial Teacher Certification Scales of the Professional Educator Performance Evaluation (PEPE) Observation Instrument: Orienting, Directing, Presenting, and Communicating. The PEPE is used by the College of Education to evaluate teaching proficiency during the full semester school internship (CTSE 4920).

4. **If the Assessment methods differ from those initially proposed to the CCGEC, identify the differences and explain the rationale for those changes:**
   NA

5. **Findings: (what add assessment data tell you about student proficiency in this outcome?)**
   Student mean ratings on all 4 scales scored above the “Competency” standard (3 on a scale of 4): Orienting = 3.05; Directing = 3.29; Presenting = 3.08; Communicating = 3.50.

6. **How did you (or will you) use the findings for improvement? (What questions /issues/concerns did your data raise for the faculty teaching the course? What discussion did the faculty have about the findings? What future actions to improve student attainment of this outcome will the department / program take as a result of this analysis?)**
   Faculty will focus on improvements in the lowest scoring scales: Presenting and Orienting. In instructional methods courses leading to internship as well as in internship teaching observations done prior to the PEPE assessment, we will increase modeling of these skills and devote special emphasis to them in student feedback on lessons presented to peers and to secondary school students.

7. **Additional Comments: (What else would you like the Committee to know about your assessment of this course or plans for the future?)**
   NA

8. **Committee Comments**
   3.11/4- The methods are appropriate for the measures they intend to evaluate. What is inferred from the scores provided in the "findings" category?
