5. Based on the comprehensive rubric for the appropriate SLO7, indicate the extent of competency of the average student who has completed this course:

6. Findings: (what add assessment data tell you about student proficiency in this outcome?)
   100% of the students performed acceptably at the presentation phase of the capstone experience and 44.6% achieved a level of outstanding in their performance.

7. How did you (or will you) use the findings for improvement? (What questions /issues/concerns did your data raise for the faculty teaching the course? What discussion did the faculty have about the findings? What future actions to improve student attainment of this outcome will the department / program take as a result of this)
   Last year we recorded 37.8% in the outstanding category, this year we recorded 44.6% (an increase of 6.8%). As we continue to make progress in this arena, there is no current need for change. However, this metric will continue to be monitored. It would appear that our School wide commitment to writing may be helping with improvements we are noting in this area.

8. Additional Comments: (What else would you like the Committee to know about your assessment of this course or plans for the future?)
