Request to Change an Undergraduate Degree Program

Title: Poultry Science Pre-Veterinary Medicine

Curriculum Code: POPV College: Agriculture

Dept: Poultry Science Date: March 3, 2008

1) List changes in degree requirements. If there are changes in course work outside offering unit, please include copy of notification. (Attach an electronic copy of the current curriculum model published in the most recent bulletin or contact Fawn Willis at willif2@auburn.edu for a current copy. Indicate changes in Italics.)

Added ANSC 3400 Animal Nutrition to model due to changes in Pre-Vet requirements by the Vet School

2) Proposed Curriculum Model. Identify MAJOR COURSES with the designation of M in parentheses. To graduate, students are required to have a 2.0 average in all courses attempted in the major. The curriculum must also provide for the University core curriculum, the school or college core, if there is one. Hours counted in University core may not count in minimum hours for major.

3) Provision must be made to accommodate 6 hours of ROTC. Programs must explain how students fulfill the SACS oral communication and computer skills requirements. If changes affect any of the aforementioned requirements, please indicate how they are accommodated in proposed program.

Students have three hours of general electives that can be used for ROTC. In addition they may substitute ROTC for the POUL 4920 Poultry Science Internship requirement.
4) Justification:

The change was mandated by the Vet-School's change in Pre-Vet requirements.

5) Addition resources or resource shifting required. If none, please explain.

None
