Request to Change an Undergraduate Degree Program

Title: Laboratory Technology  
Curriculum Code: LABT  
College: COSAM  
Dept: Chemistry and Biochemistry  
Date: 3/05/2007

1) List changes in degree requirements. If there are changes in course work outside offering unit, please include copy of notification. (Attach an electronic copy of the current curriculum model published in the most recent bulletin or contact Fawn Willis at willif2@auburn.edu for a current copy. Indicate changes in *italics*.)

Delete CHEM1200 (1 hr) and CHEM2200 (1 hr)
Add 2 hours of technical electives.

---

2) Proposed Curriculum Model. Identify MAJOR COURSES with the designation of M in parentheses. To graduate, students are required to have a 2.0 average in all courses attempted in the major. The curriculum must also provide for the University core curriculum, the school or college core, if there is one. Hours counted in University core may not count in minimum hours for major.

---

3) Provision must be made to accommodate 6 hours of ROTC. Programs must explain how students fulfill the SACS oral communication and computer skills requirements. If changes affect any of the aforementioned requirements, please indicate how they are accommodated in proposed program.
4) Justification:

CHEM1200/2200 not offered after S04.

Adding 2 hours of technical electives gives the student a chance to focus on one aspect and specialize in an area such as forensics, industrial chemistry, or environmental science.

5) Additional resources or resource shifting required. If none, please explain.

Approvals
