Request to Change an Undergraduate Degree Program

Title: Horticulture - Landscape Horticulture Emphasis

Curriculum Code: HORT College: Agriculture

Dept: Horticulture Date: 4/18/07

1) List changes in degree requirements. If there are changes in course work outside offering unit, please include copy of notification. (Attach an electronic copy of the current curriculum model published in the most recent bulletin or contact Fawn Willis at willif2@auburn.edu for a current copy. Indicate changes in Italics.)

Addition of a new curriculum model, Horticulture - Pre-Landscape Architecture Emphasis. Proposed curriculum model is attached. Also attached is the proposed Master of Landscape Architecture curriculum model and a memorandum of support from the College of Architecture, Design, and Construction.

2) Proposed Curriculum Model. Identify MAJOR COURSES with the designation of M in parentheses. To graduate, students are required to have a 2.0 average in all courses attempted in the major. The curriculum must also provide for the University core curriculum, the school or college core, if there is one. Hours counted in University core may not count in minimum hours for major.

Please see attached curriculum models

3) Provision must be made to accommodate 6 hours of ROTC. Programs must explain how students fulfill the SACS oral communication and computer skills requirements. If changes affect any of the aforementioned requirements, please indicate how they are accommodated in proposed program.

Same as current Horticulture curriculum models.
4) Justification:
The intent is for students to have the opportunity to complete the requirements for a B.S. in Horticulture while making progress toward the Master of Landscape Architecture degree. The proposal would enable students to complete the MLA in essentially two, rather than three years after completing the B.S. degree program.

5) Additional resources or resource shifting required. If none, please explain.
No additional resources will be required by either academic unit. Courses will be taught by current faculty as scheduled. Students who choose this option will be made aware of additional fees required for the Landscape Architecture courses and the additional 13 hours required at the baccalaureate level compared to current Horticulture degree tracks.
