Request to Change an Undergraduate Degree Program

Title: Agricultural Business and Economics

Curriculum Code: AGEC College: Agriculture

Dept: Agricultural Economics Date: January 16, 2009

1) List changes in degree requirements. If there are changes in course work outside offering unit, please include copy of notification. (Attach an electronic copy of the current curriculum model published in the most recent bulletin or contact Fawn Willis at willis2@auburn.edu for a current copy. Indicate changes in Italics.)

We would like to add STAT 2010 as an alternative to our current statistics offers. Now, a student must take either STAT 2610, STAT 2510 or STAT 2010.

2) Proposed Curriculum Model. Identify MAJOR COURSES with the designation of M in parentheses. To graduate, students are required to have a 2.0 average in all courses attempted in the major. The curriculum must also provide for the University core curriculum, the school or college core, if there is one. Hours counted in University core may not count in minimum hours for major.

3) Provision must be made to accommodate 6 hours of ROTC. Programs must explain how students fulfill the SACS oral communication and computer skills requirements. If changes affect any of the aforementioned requirements, please indicate how they are accommodated in proposed program.

We have six hours of free electives.
4) Justification:
From reviewing, the statistics offering, we see that some of our students would benefit from having STAT 2010 as a possible course choice.

5) Additional resources or resource shifting required. If none, please explain.
None.
