Justification (Indicate reason for change)
This course will be used primarily to accommodate the growing interest among our students to participate in the AU Horticulture Study Abroad Program. In addition to individual programs, we currently have a group Horticulture Study Abroad agreement with Myerscough College in Bilsborrow, England. It is anticipated that this course may also be used to accommodate future educational industry study tours or travel experiences.

Additional resources or resource shifting required. If none, please explain.
Required resources are already in place. Students have previously participated in these programs under AGRI 3800 Agricultural Leadership. A specific course in horticulture will give our Study Abroad and domestic study/travel experiences an appropriate course number, title, grading mechanism and rigor.

Attach a copy of new syllabus to add course or to modify course except for changes in prerequisites that involve letter grade or GPA.
Also, attach a copy of current syllabus for all changes except changes in prerequisites that involve letter grade or GPA.
No attachment required to delete course.
